

10/683,754

Amendment in Response to March 7, 2006 Final Office Action

Amendments to the Claims

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

Claim 1 (cancelled).

Claim 2 (previously presented): The breast prosthesis according to claim 12, wherein said adhesive element is coated with an adhesive material.

Claim 3 (previously presented): The breast prosthesis according to claim 2, wherein said adhesive material is adhesive silicone.

Claim 4 (previously presented): The breast prosthesis according to claim 2, wherein said adhesive element is coated with said adhesive material on an entire surface of said adhesive element on at least said side of said adhesive element adapted for facing a user.

Amendment in Response to March 7, 2006 Final Office Action

Claim 5 (previously presented): The breast prosthesis according to claim 12, wherein said side of said adhesive element facing said breast prosthesis is detachably secured to said back section of said breast prosthesis with hook and loop fasteners.

Claim 6 (cancelled).

Claim 7 (previously presented): The breast prosthesis according to claim 12, wherein said breast prosthesis is shell-shaped.

Claims 8-10 (cancelled).

Claim 11 (previously presented): The breast prosthesis according to claim 12, wherein said breast prosthesis comprises a light weight prosthesis.

Claim 12 (previously presented): A breast prosthesis comprising:

a back section adapted for facing a user;

Amendment in Response to March 7, 2006 Final Office Action

an annular flat region located on said back section;

an edge extending along an outside perimeter of said annular flat region and having a gap located in an upper region of said breast prosthesis; wherein said edge is elevated in relation to said annular flat region; and

an adhesive element forming a continuous surface substantially conforming to said annular flat region and extending to an inner surface of said edge, having a projection conforming to said gap;

wherein a side of said adhesive element facing said breast prosthesis is detachably secured to said annular flat region and a side of said adhesive element adapted for facing a user is detachably adherable to said user.

Claim 13 (cancelled).

Claim 14 (cancelled).
